

### Allegany SCD Rental Equipment

**Call the ASCD office at 240-609-3493 to arrange for rental.**

**Filter Fabric:** ASCD offers N08 Terratex Non.Woven Geotextile 15' wide filter fabric for a current cost of \$3.00/lineal foot. *Price is subject to change without notice.*

It is the responsibility of the person or persons who rent equipment to provide for over the road transportation of the machine in a safe manner. All equipment uses a pin hitch to transport. **THE PERSON OR PERSONS WHO RENT, TRANSPORT OR OPERATE THE EQUIPMENT ASSUME ALL LIABILITY AND RESPONSIBILITY FOR ANY ACCIDENTS INVOLVING THE TRANSPORT OR USE OF THE MACHINE.**

Please call the office at 240-609-3493 immediately if the equipment is not working or is in need of repair. Leave a message if your call is after hours. **If you do not report the need for repair or continue to use the equipment when it is not functioning properly, you will be charged for the repair cost.** Any damage beyond normal wear will be the responsibility of the renter.

**Great Plains No-Till Drill:** The drill is available for rent at a fee of \$7.00 per acre **with a minimum \$50 charge for the first day plus \$30/day for each consecutive day if not returned by 12:00 noon.** Before moving the drill there is a policy and procedure page that must be read, signed and dated. You will be given a checklist to record starting and ending acreage as well as procedures to operate. **This checklist must be completed and returned when you bring the drill back for proper billing.** The Great Plains Drill is a heavy piece of equipment that weighs approximately 1.5 tons. Movement of the drill **requires** a medium size tractor of 55-65 horsepower or a heavy duty truck equipped with a heavy duty hitch securely fastened to the frame of the vehicle. Bumper hitches and/or small trucks are unsafe and **shall not be used** to transport the drill as well as undersized tractors. An adequate size vehicle equipped with a proper hitch as described **MUST** be used to transport the drill.

**BBI Lime Spreader:** The spreader is available for rent at a fee of \$3.00/ton **with a minimum charge of \$50 for the first day plus \$30/day for each consecutive day if not returned by 12:00 noon.** If conditions arise where you can't use the spreader during your scheduled period, you must call the office. A rental agreement must be read and completed prior to moving the equipment. **DO NOT USE commercial fertilizer, animal manure or chicken litter.** If we learn that you have used any of the above, your privilege to future use will be denied. The spreader **MUST** be sprayed off and clean of material when returned to ASCD. If not, a cleaning fee will apply. The 5 ton capacity BBI Lime Spreader weighs approximately 3,000 lbs. Movement of the spreader requires a tractor or a truck equipped with a hitch that has adequate towing capacity. Manufacturer recommends a minimum of 65 PTO horsepower tractor to operate the lime spreader.

**Wheatheart High & Heavy Hitter Post Pounder:** **Can ONLY use pressure treated posts or native posts.** User **MUST** complete the rental form and demo **PRIOR** to moving the equipment. **RATES:** \$100/day for the first day plus \$50/day for each consecutive day if not returned by 12:00 noon (cannot exceed more than 5 consecutive days). Depending on project location, a pre-visit by an ASCD staff member may be scheduled. The post pounder weighs approximately 2,580 lbs. Movement requires a truck equipped with a hitch that has adequate towing capacity. It cannot be transported at speeds that exceed 55 mph. Two or more people **must** be present while operating the equipment. The post pounder **MUST NOT** be operated on slopes greater than 15%.

***Failure to comply with any of the fore mentioned conditions will result in your suspension to use district equipment.***
